► **WHO**

One of the most ancient candle factories in Italy and in the world, founded by Abramo Graziani in 1805 in Livorno. It is still a family company, owned and managed by Mario Graziani and his wife Francesca, together with their daughter Maria.

For our history, see www.graziani.net/company/history

► **MISSION**

Our history mandates us to offer the best possible products. Our candles comply with the EN candle standards and all the products we offer comply with the product's specific requirements. In our opinion, however, quality is not only a product specification: quality is how a company interacts with the surrounding world. We produce respecting the laws and the people. Respecting the laws means to pay taxes and suppliers, but also to comply with all the regulations concerning the products and the work environment. Respecting the people means to offer our workers a good work environment that enhances their skills, but also to respect our commercial partners whom we consider an integral part of our project.

► **PRODUCTION SITE**

Our factory is located in Italy, in the hills close to Pisa, the city of the leaning tower. We are proud to carry on the tradition of the family but also Tuscan craftsmanship.

▶ We can print any glass according to your requirements.
It's not a plastic label; it's real print on glass!

▶ We propose 3 elegant glasses, as follows:

- **Museum candle 280 g**, a clean cylindrical shape with round bottom, to be printed on demand and packed in bespoke coordinated box.
- **Museum candles 265 & 75g**, a very special glass with double chamber, to be printed on demand.

▶ **Colour & fragrance** (if any) to be agreed upon. White is always a good choice and makes the print more readable.

⇒ **MOQ [Minimum Order Quantity]** only 24 units for print on glass and 96 for print on box.

🕒 **Lead time** 2 months.

The Modigliani and Michelangelo heads you see in the next page are just an example of the candele shapes we can do.

► **We can replicate (almost) any shape.** We need either a 3d drawing or an original replica, plus an idea of the dimension you would like to get. This allows us to make a mould. The wax is poured into the mould; once it cooles down, the raw candle is ready to be overdipped in coloured wax and shiny lacquer for an overwhelming result.

► Price depends on dimensions and height.

► As to packaging, **we recommend a bespoke printed box**, but a clear cellobag is also an option (not suitable for very elaborate and thus fragile shapes).

► The mould has a charge and belongs to the customer.

⇒ Once the mould exists, **MOQ** is 24 units.

↻ **Lead time** 2 months.
